

Once upon a time stories would entertain both children and adults, but with the creation of Pokemon, Tellytubbies and the films of Megan Fox these worlds were torn apart...until now.

From the People who bought you the award winning The Boy with Tape on His Face Mr and Mrs Wills are proud to present...

## The *Prince* of Cringe

All is not well in the land of Cringe. An evil wizard has taken over hidden the ancient symbols of the land and banished the Prince not to mention turning him into a frog and the frog part is the easy bit to deal with. Our Prince must collect the symbols and return to his rightful place in the land of Cringe.

Like all good stories this one features woodcutters, mazes and fairies but with flying axes, walking on raw eggs and a trick with balloons that will leave you speechless...or gagging. The Prince of Cringe promises to be the fairytale that will entertain audiences young and old alike.

Sam Wills has the sense of humour of a eight year old boy. With several years circus training and a degree from the school of hard knocks of street performing The Prince of Cringe takes Sam back to what he loves best, A simple story with a selection of Circus sideshow stunts.

Do you walk on raw eggs?

Would you lower your face on a Rat trap?

Can you hammer a nail four inches into your head?

Why would you when you can see someone else do it!!

So drink your milk, eat you cookies and get comfortable.

It's Story Time.

The Prince of Cringe
